

OUR USP

You will always have access to a professional by name, a direct phone number and a brick and mortar office. We give you the confidence of being able to walk into our office, to speak with us, face-to-face. We believe in solid one to one relationships and have no virtual offices or anonymous voices.

Healthcare Informatics is the recession proof business of this century. You know that, you have a great IT team and are now wanting to venture into Healthcare IT. Or maybe you are already into it, in a small way. So why learn by trial and error? Call us for expert advice. We will hand hold you through out your journey. We support you right from strategy, to surveys, to marketing plans to project planning, resourcing, implementation, training, customer support...any thing that you need, we can offer to you thanks to our experts, expertise and network of vendors and partners. Call us today.
